

VOICETHREAD

STUNNINGLY SIMPLE AND ACCESSIBLE

VoiceThread is a cloud-based platform bringing digital media, and people's audio-visual commentary about it, together into an easy-to-use online space. These highly interactive and engaging conversations are secure and easy to create, access, manage, and participate in.

IN BUSINESS

VoiceThreading delivers all the benefits and personal presence of a live meeting with all the convenience of email communication. Better than text-only communication, and better than sending email attachments, VoiceThreading is a more effective way to engage your audience.

IN EDUCATION

VoiceThread improves instructor and student social presence in courses without any requirement for scheduling. Students find an easy-to-use platform to present, defend, and discuss their work, and educators report an increase in the quality of student submissions and participation.

For additional information about VOICETHREAD, please contact us at: inquiries@voicethread.com.

Site Licence

Starting at \$3000/yr

Management Portal

Create, edit, and track user accounts. Manage organization level preferences and capture data about usage.

Pro Accounts

For all faculty and Administrators: unlimited VoiceThread creation, Groups creation & management, and unlimited account storage.

Basic Accounts

For all students: creation of up to 50 VoiceThreads and 1 GB of account storage.

Advanced Security Options

Manage options like requiring all users to transmit all content over an encrypted connection, session length and more.

Integration with Learning Management Systems

Single sign on, automatic account creation, course enrollment, and role setting.

Reporting and Analytics

Analyze and export usage statistics and reports at the institutional or individual level.

Archival Export Credits

A VoiceThread is a live and highly interactive online discussion space. However, an Export can be ordered at any time, resulting a downloadable video file that contains all the media and commentary of the original.

Training Webinars

Two (2) one-on-one or small-group webinars for Instructional Specialists and Administrators with a VoiceThread Account Manager.

Custom Domain Branding

Add a logo and customize the colors that all of your members see on their VT Home pages.

Support

Enhanced Support with option to upgrade to Premium. Our Account Managers are knowledgeable and passionate problem solvers that deliver best-in-class support.

Use VoiceThread on any major device platform: Android, iOS, all major web browsers. All your data is synced automatically, allowing you to move from desktop to tablet to phone without pause.
